Opal CAPITAL

Prepared for the selected scope
RTC5-A
1 account(s) in scope

Report state: Ready | Business date 2026-09-17 | Reason: OK [code not defined by the v1 contract]

PERFORMANCE REPORT

2026-01-02 to 2026-09-17

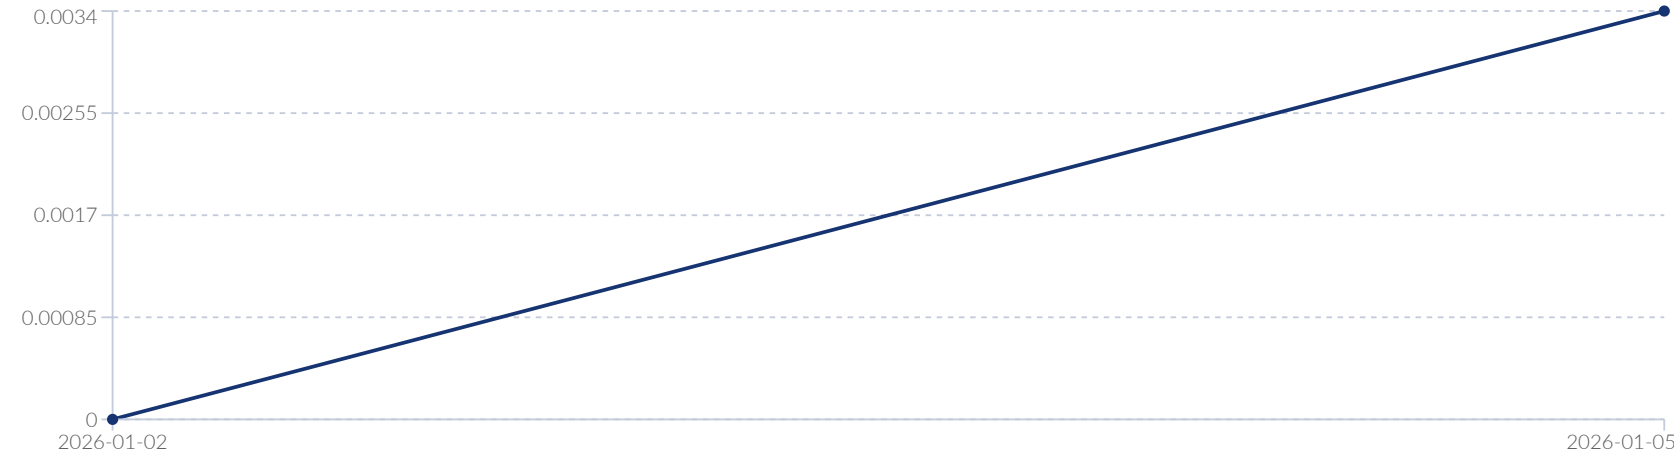

Period answered by the source 2026-01-02 to 2026-09-17

Beginning value (USD)	Ending value (USD)	Period return
UNAVAILABLE (no-household-value-fact)	UNAVAILABLE (no-household-value-fact)	UNAVAILABLE (no-summary-return-for-answered-window)

Values and returns are printed exactly as the source supplied them. This report performs no arithmetic on them: no gain is derived from the two values above, and nothing is averaged.

Cumulative return, as supplied

SERIES START **2026-01-02** 0 SERIES END **2026-01-05** 0.0034

Every plotted observation, as supplied (2 of 2)

Date	Cumulative return

Date	Cumulative return
2026-01-02	0
2026-01-05	0.0034

Prepared for the selected scope

PERFORMANCE DETAIL

Period results, as supplied

Period	Window	Return
YTD	not stated	0.0732

Accounts in this report

Account	Reference	Covered	Ending value (USD)	Period returns
ACCT-ALPHA-0001	ACCT-ALPHA-0001	true	UNAVAILABLE (unknown)	Account 0.0688

Accounts in scope this report does not answer

None. Every account in the requested scope is represented above.

Report state: Ready | Business date 2026-09-17 | Reason: OK [code not defined by the v1 contract]

METHODS AND SOURCES

Method

Return method	TIME_WEIGHTED -- as stated by the source; this report does not interpret it further
Fee basis	net of fees
Annualization	cumulative
Accrual basis	accrual
Currency	USD (values: USD)
Units	Returns and values are printed in the units the source supplied. This report applies no unit conversion, no rebasing and no rounding.

Limitations

Requested window	2026-01-01 to 2026-09-17
Answered window	2026-01-02 to 2026-09-17

The source answered the requested window. Figures reflect that window only; nothing before its start, including account inception history, is represented.

The requested and answered dates differ only by days the market was closed (NYSE trading calendar (lib/trading_calendar.py)): requested start 2026-01-01, answered start 2026-01-02: the first trading day on or after either is 2026-01-02.

Accounts the report could not cover are listed by reference on the detail page. An unsupported metric is printed as UNAVAILABLE with the reason the source gave, never as zero.

Export bundle

Bundle	`RTC5-A` (performance)
Bundle schema	`investor-reporting/1`
Authorized reports	`RTC5-A` at revision `RTC5-A` (all sections)
Narrative packet	none in this bundle
Approved assets	
Versions	template `unknown`, renderer `unknown`, disclosures `unknown`

Render options	LETTER portrait, locale `unknown`, disclosures included: false
Live provider request during render	false -- this document was composed from the authorized bundle alone.
Bundle revision	`RTC5-A` (source RTC5-A, entitlement unknown, issued unknown)
Bundle envelope (not the report)	the export bundle's own envelope reads READY -- a statement about the bundle object, NOT the report's state. The report is Ready (Report availability, above).
Bundle clocks	business not stated; source not stated; ingested not stated; generated not stated
Bundle scope	tenant `49financial`, fingerprint `SCOPE-ALPHA`, firm `not stated`, client `not stated`, relationship `not stated`, accounts 1 account(s) in scope (the bundle names no account list of its own)
Rendering package	`investor-reporting-render/1.0.0`

Disclosures (version unknown)

The export bundle's render options set includeDisclosures to false, so the disclosure text is withheld from this document. The version above identifies the text that applies.
